

Dear Mr. Webels,

I am writing to express my keen interest in the internal job posting for the position of Technical Architect in Data & AI, with a focus on Generative AI. The opportunity to leverage my extensive knowledge and experience in the IT and AI/ML domains to contribute directly to the development and strengthening of your department is something I view as an ideal path forward.

My technical foundation, established through my initial degree and further enhanced by expanding my knowledge in Logistics Management and Data Science, along with regular IT certifications, provides me with a solid base. This foundation has enabled me to successfully serve in various IT roles at Deutsche Post AG over the last ten years. My deep understanding of Cloud and Automation technologies, especially RPA, and my involvement in developing modern architectures have not only led to improvements in the IT landscapes I have worked with but also laid the groundwork for innovative solutions.

I would like to highlight my initial experience with generative AI, which showcases my ability to implement forward-thinking technologies in practice. This experience, combined with my understanding of IT management processes, positions me as a versatile employee capable of enhancing both technical and organizational aspects of IT. My analytical thinking and ability to quickly comprehend and solve complex problems complement my technical skills and constantly drive me to explore new technologies and innovative solutions.

Applying my knowledge in the area of generative AI and RAG architectures offers exciting prospects for your department. I am confident that my comprehensive knowledge and passion for technological innovation will make a significant contribution to the success of your team. I look forward to the opportunity to continue contributing to the growth and success of your department.

Yours sincerely,

Igor Nikolaienko
